

## SSTMP students meeting 2018, Nov 1 & 2, Solbadhotel Sigriswil

10:30	Britta Lundström-Stadelmann: welcome and introduction to SSTMP
-------	--

Nov 1, session 1				
chairs: Reto Rufener, Nadja Wipf				
time	name	affiliation	group	title
10:40	Anna Fesser	Swiss TPH	Pascal Mäser	How live imaging can improve Chagas' disease drug screening
10:50	Hélène Baudouin	IZB, Uni Bern	Torsten Ochsenreiter	Characterization of a mitochondrial associated protein in <i>Trypanosoma brucei</i>
11:00	Simona Amodeo	IZB, Uni Bern	Torsten Ochsenreiter	Characterisation of the TAC associated protein TAP110 in <i>T. brucei</i>
11:10	Jackie Ndem	IPB, Vetsuisse Zürich	Adrian Hehl	Life cycle of <i>Giardia lamblia</i> and <i>Toxoplasma gondii</i>
11:20	Rui Santos	IPB, Vetsuisse Zürich	Adrian Hehl	Insights into <i>Giardia lamblia</i> ultrastructure
11:30	Rahel Winiger	IPB, Vetsuisse Zürich	Adrian Hehl	Nanobodies: A new addition to the biomarker toolbox for <i>Toxoplasma gondii</i>
11:40	Nicoleta Anghel	IPB, Vetsuisse Bern	Andrew Hemphill	Chemotherapy against neosporosis (not final title)
11:50	Francis Brühlmann	ITPA, Vetsuisse Bern	Philipp Olias	Theileria effector proteins that transform the host cell
12:00	Ines Dettwiler	ITPA, Vetsuisse Bern	Philipp Olias	The variety of cryptosporidiosis in swiss calves
12:10	<b>lunch</b>			

Nov 1, session 2				
chairs: Anna Fesser, Simona Amodeo				
time	name	affiliation	group	title
13:40	Afona Chernet	Swiss TPH	Klaus Reiter	Migration Medicine
13:50	Marta Palmeirim	Swiss TPH	Jennifer Keiser	How well informed are participants before they sign an informed consent form at the start of a clinical trial?
14:00	Louisa Warryn	Swiss TPH	Gerd Pluschke	Development of an antigen-capture assay for mycolactone detection
14:10	Abdel Halim Mahmoud	Swiss TPH	Pascal Mäser	Antiparasite activity of sudanese medicinal plants
14:20	Alexandra Probst	Swiss TPH	Jennifer Keiser	Resumption of investigations on the abandoned schistosomicidal agent Ro 15-5458
14:30	Valentin Buchter	Swiss TPH	Jennifer Keiser	In vivo and in vitro characterization of broad spectrum oxamniquine derivatives
14:40	Dominic Rittler	IPB, Vetsuisse Bern	Britta Lundström-Stadelmann	In vitro metabolomic studies on the <i>Echinococcus multilocularis</i> metacestode
14:50	Reto Rufener	IPB, Vetsuisse Bern	Britta Lundström-Stadelmann	Targeting the Mitochondrial Complex III in <i>Echinococcus multilocularis</i>
15:00	<b>coffee break</b>			

Nov 1, session 3				
chairs: Rui Santos, Nicoleta Anghel				
time	name	affiliation	group	title
15:30	Mathurin Fatou	Swiss TPH	Pie Müller	Perception of repellents in mosquitoes
15:40	Nadja Wipf	Swiss TPH	Pie Müller	The Anopheles LabDisk - an automated diagnostic platform for malaria vectors
15:50	Isaac Haggai Namango	Swiss TPH	Manuel Hetzel	Modeling vector control-dependent changes of malaria epidemiology for surveillance and control of residual transmission
16:00	Annina Bindschedler	IZB, Uni Bern	Volker Heussler	Host cell p62 in <i>Plasmodium</i> liver stage: between autophagy and signaling
16:10	David Dubois	Uni Geneva	Dominique Soldati-Favre	Regulated exocytosis of secretory organelles in Apicomplexa
16:20	Maria Gruenberg	Swiss TPH	Ingrid Felger	The use of amplicon sequencing for molecular monitoring in malaria drug efficacy trials
16:30	Lorenz Hofer	Swiss TPH	Sarah Moore	Does malaria selectively disadvantage insecticide resistant mosquitoes?
16:40	Anneth Tumbo	Swiss TPH	Claudia Dacibenberger	Human Blood Virome of Asymptomatic Tanzanian Adults
16:50	Laura Vavassori	Swiss TPH	Pie Müller	Dispersal dynamics of the Asian tiger mosquito in Switzerland
17:30	<b>Fackelwanderung and Glühweinapero</b>			
20:00	<b>Dinner</b>			

## SSTMP students meeting 2018

Nov 2	
time	
09:00	Keynote lecture Bruno Gottstein, IPA Bern
10:15	Coffee break
10:45	Group work
12:15	Lunch
13:30	Presentations by working groups
15:30	End, questionnaire
16:03	Departure
